### **Kant & Clients Auditors & Chartered Accountants**

#### Specialist Jewellery Auditing Experience

- Extensive experience in jewellery accounting, inventory control and management reporting
- Extensive experience in internal control system for jewellers
- Specialist knowledge of loop-holes and weak areas open to exploitation for jewellers
- Specialist knowledge of special jewellery features like fixed/unfixed metal transactions, metal fixing positions and risks, purity losses/gains, scrap transactions, pure gold reconciliations, metal trial balances, consignment or approval transactions, diamond jewellery component control, diamond jewellery tagging and physical stock verification control, etc, etc

#### Special advantage for Visual ACE-GOLD Clients

- Special audit software linked with Visual ACE-GOLD to detect many abnormalities, like: abnormal making charges/gold rates in purchase/sale, abnormal gross profits, abnormal metal purity losses and gains, abnormal purities (i.e. 0.875 or 0.092 for 22 kt.)
- Audit software to detect accounting abnormalities, like: mismatched metal/currency trial balance, blank account codes, mismatched transactions
- Audit software to detect missing, duplicate and forward-dated and back-dated transactions
- Control over Edit/Delete, User Access Rights, etc
- Detection of abnormalities through software, like: Tag Discounts in abnormal range, Sales at abnormal Gross Profit, Negative Stocks, Negative Cash Balances, Purchases at abnormal costs, Metal Transactions with high purity difference
- Software based Physical Stock verification & control – periodical and perpetual inventory control
- Paper-less reporting in PDF format, with commenting, on consolidated audit reports, with indexes
- Support coordination for any software problems
- Many more such advantages...
