Latest .NET ERP Software Launch

By Emirates Business Management

www.ebm-international.com

PROFESSIONAL ERP – CORRECT SIZE & COSTS, LOCALLY DEVELOPED, INTERNATIONAL STANDARDS, FULLY CUSTOMISABLE, RECESSION-PROOF…

SAVES TREMENDOUS COSTS…

Typical ERPs costs exorbitantly – initial purchase, training & implementation, customization, internal & external maintenance, big IT department to maintain such complex ERPs. All this comes at steep costs without matching benefits, that even good companies can't afford – especially in recession.

That's where we score – affordable & professional ERP, locally developed, fully customizable, needing minimal support…

Main Modules

- Finance & Accounting Management
- Procurement Management
- Materials Management
- Sales & Distribution Management
- Retail Management
- Merchandising
- Human Resource Management
- Asset Management
- Manufacturing Management
- Contracting/Job-Costing Management
- Many more…

Technical Features

- Based on Microsoft's latest .NET Technology – user-friendly interface
