What is new?

- Single integrated enterprise **multi-branch/division/location*, multi-year database** for single or multiple branch/division/location/year reports and analysis
- **Centralised, Integrated, Enterprise-wide Management & Control**
- **Saves tremendous manpower** (upto 70%) and **eliminate human errors** by integrated **multi-branch entries** (Inter-Branch Stock Transfers, JVs, Payments, Receipts etc) with automated inter-branch entries
- **Consolidated Reports:** Branch/Division-wise or consolidated Financial Statements, Stock Balance, Sales Analysis & many more reports & analysis
- **Fast, Powerful, Secured Database** – self-managed and license-free or MsSQL version*, with much lesser data-corruptions/crashes, less support required
- **Suitable versions* to suit any level of operations**: 1 to 1000 Users/Branches
- **ERP version*** – with integrated modules: Accounts & Finance, Sales & Distribution, Procurement, Materials Management, Retail, Manufacturing, Utilities & Maintenance etc; with approx. 10 times more menu items, power & functionality
- **Cost-Center Analysis** – provides in-depth analysis beyond statement of accounts – for advanced micro analysis of hundreds of accounts – for decision making
- **Based on ever reliable Microsoft Visual Technology compatible with Windows7**
- **Powerful Management Reports & Graphical Analysis**
- **Multi-level** (4/6*-Levels) reports with **Report Templates** to save repeated choices
- **Powerful Report Writer*** – modify, copy, save multiple reports
- **Definable Documents*** – with many definable features for each
- **Document Authorisation*** – for authorized users, for digital authorization/control
- **Document Attachment Module*** – attach any file with any transaction/master to create easily accessible Document Archive for paperless digital office management
- **Powerful Secured User Rights** for each Transaction (or most Masters) for each function – Add/Edit/Delete/Print/Reprint and many more functions
- Elegant, Corporate & Professional Design with Improved Interface & functionality
- Dynamic, multi-level icon bar at top and in menu; Transaction Icon Bar for ease

Plus the existing great features!

- **For any product***: Gold/Diamond/Pearl Jewellery & Watches, Bullion, Loose Dia.
- **For any Business***: Wholesale, Retail, Manufacturing, Trading
- **Multi-User*** (Local & Remote), **Multi-Currency**, **Multi-Language***
- **Integrated** Accounts, Inventory Control, Management Reports
- **Advanced Solutions***: Barcoding, RFID Inventory Control, Picture Catalogues, Studio Box, Pocket PC for outdoor sales/use, Retail Customer Relation Management, SMS/Email/Loyalty Cards, Item Certificates, Payroll & Personnel Management, Employee ID Cards, W.Scale Interface, PDF interface; many more…

Why VAGE / EBM?

EBM's management are pioneers and first to start jewellery business management software 20 years ago – and has majority market-share – with continuous upgrades, support and proven track record till-date – backed by experience with 3000 jewellers in 30 countries! No other software can claim anything even near to this. There may be other software in the market – but they are either our cheap inferior clones, or based on our pirated source codes/technology by dishonest people looking for quick bucks!

Note: This brochure is for general information and include optional modules, contact us for specific proposal or details

experience with 3000 jewellers in 30 countries for 20 years…
